Membership Categories

**Senior Scientist**

A person with qualifications in biomaterials research that might be evidenced by 15 years research experience, 60 or more scientific publications and a record of continuous research funding as principal investigator.

**Scientist**

A person with qualifications in biomaterials research that might be evidenced by at least 5 years research experience, 20 or more scientific publications and research funding as principal investigator.

**Investigator**

A person with demonstrated interests in biomaterials research that might be evidenced by less than 5 years research experience, several scientific publications and/or participation as co-investigator in funded research.

**Visiting Status**

The term "visiting" will be applied to a title for a person who possesses a temporary academic or research appointment with a qualifying institution in or affiliated with the Texas Medical Center.

**Adjunct Status**

The term "adjunct" will be applied to a title for a person who interacts with and supports the Center but does not qualify for another status.

**Pre- or Postdoctoral Fellow**

A person participating in the Center as a student in an academic program of a qualifying institution in or affiliated with the Texas Medical Center.

Advisory Board

A person providing voluntary service to the Center as a consultant.
