Combining
Esthetics & function
 for Longevity

DR. JIMMY EUBANK

HOTEL ZAZA, HOUSTON MUSEUM DISTRICT

Combining Esthetics & Function for Longevity

LEARNING OBJECTIVES

HOW TO IMPROVE YOUR ESTHETICS USING ADVANCED TECHNIQUES

HOW TO KNOW IF ANTERIORS CAN BE LENGTHENED WITHOUT FEAR OF BREAKAGE

HOW TO BE CERTAIN YOU HAVE CREATED STABILITY AND HOW TO MONITOR THAT STABILITY OVER TIME

The number one reason people go to the dentist today is to improve their smile. Patients want to look better and today dentists can deliver results that mimic nature. A natural result does not happen by accident. It happens because the dentist has educated themselves about the rules, tools and strategies of esthetics. However, delivering superior esthetics alone is not enough to insure long term success. It takes being able to deliver restorations that function comfortably over a long period of time. Longevity of esthetics restorations is the expected result of our patients. Predictable longevity is achieved by a practical understanding of occlusal principles and a knowledge of how to manage the forces that exist in each individual patient.

DR. JIMMY EUBANK

Dr. Jimmy Eubank is a internationally recognized leader in the field of esthetic and functional dentistry, with over 30 years of experience as a dental practitioner. A 1974 graduate of The University of Texas Dental Branch, Dr. Eubank has the unique distinction of being the only professional in the world accredited as both a dentist and a laboratory technician by the American Academy of Cosmetic Dentistry. In addition to his dual accreditation, Dr. Eubank has trained with master ceramists in the United States and Europe, making him an end-to-end expert on esthetics and occlusion, and recently awarded the Lifetime Achievement Award from the AACD in 2009. This award has only been given to 2 other dentists since the start of the AACD.

Dr. Eubank is currently the director of the Post Graduate Esthetics Continuum at Louisiana State University School of

Dentistry. Additionally, Dr. Eubank co-directs advanced post graduate programs at Louisiana State University, the University of California at Los Angeles, the University of New York at buffalo and the University Of Minnesota School Of Dentistry. His other professional distinctions include being a fellow and past accreditation chairman of the American Academy of Cosmetic Dentistry, a fellow of the Academy of General Dentistry, and a fellow of the American Academy of Esthetic Dentistry.

Dr. Eubank currently maintains a comprehensive care practice and laboratory focused on esthetics and occlusion in Plano, Texas. His facility also includes a state of the art educational facility where he hosts many in-office courses, seminars and lectures for the dental and esthetics professional community.
